TRADE®

PRODUCT CATALOGUE

2021

Delta Trade specialises in the ODM/OEM production of children articles.

Delta Trade s.j. production plant is based in Poland, Europe. With many years of experience in creating children articles, we are the industry leading manufacturer. Our team will help you to adapt a product to your domestic safety standards and market regulations.

Our best sellers are polyurethane foam seats. Creating them we focus on the safety and comfort of our most important clients - children. They love watching television, doing homework, or just relaxing in our brightly colored products.

Delsit brand is well known for it's high quality foam furniture with trendy designs.

We are constantly developing the brand's distribution network and looking for new partners all over the world.

Currently Delsit is distributed directly in online and offline channels throughout the European Union, North America and Middle East.

DT8 ARMCHAIRS

Our world's best selling item !

Delsit DT-8 armchair is a must have. It is crafted with passion, attention to details and intended just for children.

Chair is made of soft and lightweight foam which makes it a perfectly safe item.

Thanks to our proven foam construction it is stable while still being ultra soft and light.

Dedicated for the little ones

Our soft DT-8 armchairs are dedicated for children from 9 months up to 4 years of age.

Light and handy

Children love DT-8 armchairs because they can be easily carried back and forth while played with, as the weight is only 1 kg.

Specifications:

- EU dimensions: 42 x 52 x 32 cm
- US dimensions: 16,5" x 20,5" 12,5"
- For children between 9 months and 4 years of age
- Made of soft foam
- Easy to lift and handle
- Finished with color trimming
- Removable zip cover for easy washing
- Cover is made from durable 100% cotton
- Printed parts made from high quality polyester
- HSN 94018000

- Finished with color trimming
- Removable zip cover for easy washing
- Cover is made from durable 100% cotton
- Printed parts made from high quality polyester
- HSN 94018000

Customer reviews

As a preschool teacher, it is important to me to provide practical and comfortable seating in the reading area of my classroom. This couch is the absolute best in quality and comfort I have purchased in my 20 years of teaching. The children love relaxing on their reading couch, while exploring a new book! It is also very easy to clean with its removable cover and the craftsmanship is excellent. The fold-out option is a plus for nap time as well.

California Assembly Bill No.1108

San Francisco Health Code

Children Product Certificate - USA

With over 20 years of experience as a manufacturer we provide advice and assistance to obtain appropriate certificates on the distribution market.*

*Please note that the cost of certification is not included in the price

Delta Trade production plant

Our factory is located in Poland
We are well connected with Europe
by road and rest of the world by sea
port in Gdynia.

Why dye sublimation printing is a better solution for printing seats ?

The key advantage is creating a finished product that's much more durable than a print created by screen printing. Sublimation impregnates the fabric with ink which becomes a part of the fabric itself. Prints cannot be damaged by wearing, flaking off or cracking. What is more, dye sublimation prints are visually more appealing, because this process involves a continuous tone output in printing. This allows smoother and brighter color transitions and variations than screen printing.

Key advantages over screen printing:

- Higher resolution of prints up to 720x1440 dpi
- Better design reproduction due to higher pixel density achieved by use of a MicroPiezo printhead and variable ink droplet size technology
- Quick response to arising deficiencies or changes in orders
- Accurate colour reproduction by using best available calender
- Flexible print area - from 1x1 cm up to 1,60 x 100 meters
